Work Experience

Front End Developer

BwLogics - Lahore Punjab
October 2022 to Present

I am a front-end developer with expertise in creating visually appealing and user-friendly websites and web applications. I have experience in HTML, CSS, JavaScript, and various front-end frameworks such as React and Angular. I am skilled in creating responsive designs, and can ensure that a website or application looks and works great on any device. Additionally, I am comfortable working with version control systems such as Git, and can easily collaborate with other members of a development team. I am also familiar with web standards and best practices, and always strive to create maintainable and efficient code.

Education

Intermediate in Computer Science

Forman Christian College - Lahore Punjab
August 2021 to Present

Certifications and Licenses

Web Development

Javascript Data Structures And Algorithm

Front End Development

January 2023 to Present

As a front-end developer, I have a strong understanding of web development and user experience. I have experience in creating visually appealing and responsive websites using HTML, CSS, and JavaScript. I am skilled in using front-end frameworks such as React, Angular, and Vue.js to build complex and dynamic user interfaces. Additionally, I have a solid understanding of cross-browser compatibility issues and can troubleshoot and debug web pages. I am a team player and have experience in working closely with back-end developers and designers to ensure a seamless user experience.

Additional Information

I am a web developer with a passion for creating high-quality, user-friendly websites and applications. I have a strong understanding of web development technologies and am skilled in HTML, CSS, JavaScript, and other programming languages. I am dedicated to delivering results that exceed my clients' expectations and always strive to improve my skills.
