OBJECTIVE

Aspiring Data Scientist with hands-on internship experience across data analytics, machine learning, and full-stack AI development. Skilled in Python, SQL, and building data-driven insights from large datasets (50,000+ records analyzed). Experienced with FastAPI microservices, RESTful API development, and end-to-end deployment. Strong front-end development background in React JS and Tailwind CSS, with multinational project experience.

EXPERIENCE

Full Stack AI Intern — Netsol Technologies *Jun 2025 – Jul 2025*

- Built full-stack AI applications using a FastAPI backend, SQLAlchemy ORM, and a React frontend
- Integrated custom made ML model with my app

Data Scientist Intern — McDonald's Corporate *Sep 2024 – Nov 2024*

- Completed a Business Analytics and Data Science internship covering the end-to-end analytics workflow
- Analyzed 50,000+ ERP transaction records using Python (Pandas, NumPy) to support operational decision-making

Data Science Intern — The Sparks Foundation *Sep 2023 – Dec 2023*

- Explored business analytics use cases, extracting actionable insights from large, real-world datasets
- Completed multiple hands-on ML projects, published and documented on Kaggle and personal portfolio

Front-End Developer — Virtual University *Jan 2023 – Apr 2023*

- Developed and deployed real-time front-end projects using React JS and Tailwind CSS for company web services

Front-End Developer → Senior Front-End Developer — Canidade Global *Oct 2022 – Jan 2023*

- Built and deployed responsive front-end user interfaces using HTML, CSS, and JavaScript on AWS

SKILLS

Data Science & ML: Python, Pandas, NumPy, Scikit-learn, Machine Learning, Deep Learning, NLP
Data Analytics: EDA, Data Cleaning, Data Visualization, Power BI
Databases: SQL, MongoDB, PostgreSQL,SQL Alchemy
Frameworks & Libraries: FastAPI, Express.js, React JS, Node.js, Tailwind CSS
Programming Languages: Python, C++, JavaScript,C++, Assembly
Tools & Platforms: Git, GitHub, Jupyter Notebook, VS Code, Postman, pgAdmin, Chrome DevTools, Sentry

CERTIFICATIONS

Graduate Rotational Internship – The Sparks Foundation (Feb 2024)
Data Analysis with Python – freeCodeCamp (Sep 2023)
Machine Learning with Python – freeCodeCamp (Sep 2023)
Front End Development Libraries – freeCodeCamp (Jan 2023)
JavaScript Algorithms & Data Structures – freeCodeCamp (Nov 2022)
Introduction to Data Science – Cisco Networking Academy

EDUCATION

BS Computer Science — Virtual University, Pakistan (2023 – Present)
Intermediate — Forman Christian College, Pakistan (2020 – 2022)
Matriculation — Bahria Foundation College, Pakistan (2018 – 2020)
